## Projects

### EV VEHICLE BOOKING - FOR INSTITUTIONS THAT OPERATE ELECTRIC VEHICLES

Team size: 4

Duration: 3 months

Tools and Technology used: Flutter, Dart, Firebase, Android Studio

Role Played: UI Developer  
Description

- Developed a mobile application to book electric vehicles within a college campus. Features include location and destination selection, user designation, luggage status, and travel purpose.
- Operators receive requests, assign vehicle numbers, and manage booking history with statuses: Approved or Rejected.

Soft Skills

- Leadership
- Time Management
- Teamwork & Collaboration
- Adaptability & Flexibility
- Observation

Languages

- English (W,R,S)
- Tamil (W,R,S)

Personal Details

NAME : UDHAYAA V D  
D.O.B : 22.02.2005  
FATHER’S NAME : VELUSAMY K  
MOTHER’S NAME: DIVYA V  
PLACE : TIRUPPUR

Hobbies

- Listening to music
- Watching movies
- Playing cricket

SIMPLE FOOD RECEPIE APP

Team size: 1  
Tools and Technology used: Figma, Google Fonts, Iconify Plugin  
Role Played: UI Designer

Description

- A clean and intuitive mobile UI design for a food recipe and ordering app. It includes a home page to browse food items with images and prices, and a checkout page to review selections, choose payment methods, and place orders. Designed in Figma with a focus on user-friendly navigation and modern aesthetics.

FOOD BUSINESS LANDING PAGE DESIGN

Team size: 3  
Role Played: UI Developer

Description

- Developed a modern, responsive landing page for a local food business to enhance its online presence and customer engagement. The page includes key sections like a hero banner, menu highlights, and a direct "Order Now" feature. Integrated Zomato and Swiggy platforms, allowing users to place orders seamlessly through external food delivery services. Focused on clean layout, brand colors, and mobile-friendly design for optimal user experience.
